

Founded in 2003, BackVintage has built its reputation on delivering exceptional wines at unbeatable prices, without the overheads of traditional wineries. We source the finest fruit from Australia, New Zealand, and even France, working with industry legends like Nick Bulleid MW and Mike Farmilo (former Senior Red Winemaker at Penfolds and winner of two Jimmy Watson trophies) to craft wines that reflect the best of each region and vintage.

WINEMAKING

The grapes were harvested in the cool conditions of night and then destemmed, yielding mostly whole berries for the fermenters. There, they fermented for seven days under temperature control. After pressing, the wine underwent malolactic fermentation in tank and was then transferred to French oak barrels for 15 to 18 months.
